

HEALTH DECLARATION FORM - COVID-19

Read this statement prior to signing it. You must complete this additional Medical Statement to enroll in a diver training program or to participate in any diving activity. If you are a minor, you must have this Statement signed by your parent or guardian.

DIVER MEDICAL QUESTIONNAIRE

The purpose of this medical questionnaire is to ensure that you are medically fit to dive. Should you have any existing conditions that could compromise your fitness to dive, you will need to consult with a diving medical specialist. A positive response means that there may be a preexisting condition that may affect your safety while diving. Please answer the following questions with a YES or NO. If you are not sure, answer YES. If any of these statements apply to you, we must request that you consult with a physician, preferably a Diving Medicine Specialist prior to participating in diving activities.

Within the 40 days immediately preceding the date of this Health Declaration Form, have you:

PLEASE NOTE

COVID-19 shares many of the same symptoms as other serious viral pneumonias that require a period of convalesce before returning to full activities – a process that can take weeks or months depending on symptom severity (1).

MEDICAL RECOMMENDATIONS (2):

- Divers who have had symptomatic COVID-19, should wait a minimum of TWO months, preferable THREE, before resuming their diving activities.
- Divers who have tested positive with COVID-19 but have remained completely asymptomatic, should wait ONE month before resuming diving.
- Divers who have been hospitalized with pulmonary symptoms related to COVID-19, should, after a three-month waiting period, undergo complete pulmonary function testing as well as a cardiac evaluation with echocardiography and exercise test (exercise electrocardiography) to ascertain normal cardiac function prior to your return to diving.

GENERAL RECOMMENDATION

- Divers and dive centers should observe strictly the guidelines for disinfection of diving gear (as issued by the diving federations and DAN Europe / Divers Alert Network).

The present is a sample of Health Declaration Form that a dive centre or dive professional may want to adopt and submit to customers and students, before taking up any diving activity with them.

The Form has been developed by the DAN Europe Medical Division team, based on information available as of May 2020. The epidemiological situation is constantly evolving. As a result, this document may be subject to changes and updates.
